Q. WHO IS AT RISK?

A. Your grandmother, your mother, your aunt, your sister, your daughter, your cousin, your friend, your co-worker and **YOURSELF**.

Help to educate women about the importance of early breast cancer detection, diagnosis and treatment. Annual mammography screenings can detect breast cancer early and are the best chance women have for beating this deadly disease.

Breast cancer is the most common cancer in women and falls only second to lung cancer as a leading cause of cancer death. Encourage every woman you know to schedule a mammography screening for herself today. It could save her life.

This beautiful brick home located in a quiet neighborhood is a great find. The home consists of three large bedrooms with spacious closets, two bathrooms one of which has been completely remodeled, living room, family room and a large eat in kitchen with a dishwasher, garbage disposal, stove, refrigerator and a fabulous view of the picture perfect fenced in back yard. This house has been well maintained and the owners have made many upgrades: New front porch with roof, all new windows, new metal roof and guttering, new A/C and furnace, new pex water lines and a 70 gal hot water heater for those long relaxing showers. This family home is located on a large 104 x150 lot just a few blocks from town, close to the school and only one block from the city pool.
